

Mike Schimings

Chief Operating Officer

Mike Schimings is the Chief Operating Officer of Advanced Vehicle Assemblies. Mike was previously the Director of Operations for Advanced Vehicle Assemblies. He joined Global Automotive Systems in June of 2020 as Director of Manufacturing Engineering and Operations for Global Automotive Systems prior to its sale to Advanced Vehicle Assemblies. Mike currently has P&L responsibility for AVA's four manufacturing facilities along with responsibility for Operations, Logistics, Quality, Program Management and Procurement.

Mike has over 20 years of experience in the automotive industry including five years with Fiat Chrysler Automobiles (FCA) as the Stamping Equipment Program Manager for multiple stamping plants. Mike was responsible for long term strategic capital planning and standardization efforts for the stamping division of FCA. Mike has spent many years in Product Engineering and Program Management at Dura Automotive Systems in the Controls Systems division leading multiple successful launches.

Mike holds a bachelor's degree in Mechanical Engineering from Lake Superior State University and a Project Management Professional (PMP) designation from the Project Management Institute (PMI).
