

# Robert Arrowsmith

Chief Information Officer

Robert Arrowsmith is the Chief Information Officer of Advanced Vehicle Assemblies. Robert has invested over 25 years in partnering information technology with all functions of the automotive business through several ERP and HRIS implementations, along with other initiatives. Leveraging AVA's ERP system, Robert also has material, planning, and logistics responsibility.

Other roles included Director, Enterprise Information Technology for Global Automotive Systems and Senior Global Manager for IT Applications at Dura Automotive.

Robert holds bachelor's and master's degrees from Saginaw Valley State University.
